Mot de l'auteur

Un livre à destination des adultes

Ceci est un livre pour adultes, même si j'ai vu sur les réseaux des enfants de 7 ans réussir à finir les coloriages. La complexité, la finesse des lignes et la petite taille des symboles demandent une bonne vue et beaucoup de précision afin de finaliser une illustration complètement.
Cet ouvrage est le résultat de plusieurs heures d'expériences en coloriages, ainsi que de nombreuses discussions avec la grande communauté des fans de coloriage.

À savoir

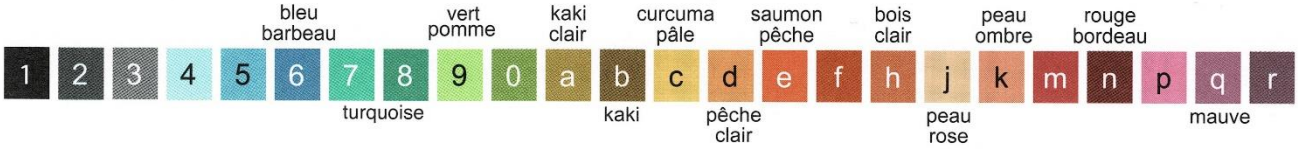

- Afin que les illustrations restent très détaillées, j'ai été obligé de laisser des petites zones déjà colorisées, car il n'était pas possible de mettre un code couleur à l'intérieur de la zone.
- Chaque zone comporte un seul et unique chiffre ou lettre (ou symbole), donc faites attention avant de les recouvrir de couleur.

Il est donc normal que plusieurs pages comportent des zones déjà imprimées en couleur.

Les couleurs

Comme d'habitude, vous trouverez les références couleurs en bas de chaque page et les solutions à la fin de l'ouvrage. J'ai cependant fait un peu évoluer le placement des codes couleurs pour les mettre en dégradé, afin qu'il soit plus simple de les différencier et de les comprendre.
Les dégradés vont vous permettre de reconnaître plus facilement les couleurs difficiles et de les choisir parmi vos gammes de crayons ou de feutres. Quand vous ne savez pas identifier une couleur, regardez celle qui se trouve juste avant ou juste après pour savoir quelle teinte j'ai choisie.

Si vous n'avez pas la bonne couleur, ce n'est pas grave, vous pouvez prendre une couleur proche plus claire et assombrir au crayon de couleur légèrement, afin de corriger la teinte.

Code couleur

Les lettres utilisées pour identifier les couleurs (après les chiffres), sont choisies pour pouvoir les différencier facilement. Il n'y a pas de « i » et de « l », car il y a un risque de les confondre avec le « 1 ». Il n'y a pas de « o », qui est trop proche du « 0 » (zéro). J'ai également enlevé le « g » et le « y », trop proches du « 9 ». Il n'y a pas de « v », qui est trop proche du « u ». Nouveau record, j'ai dû utiliser 33 couleurs pour l'illustration n°5, j'ai donc ajouté 3 symboles : Ϫ, Φ, ψ.

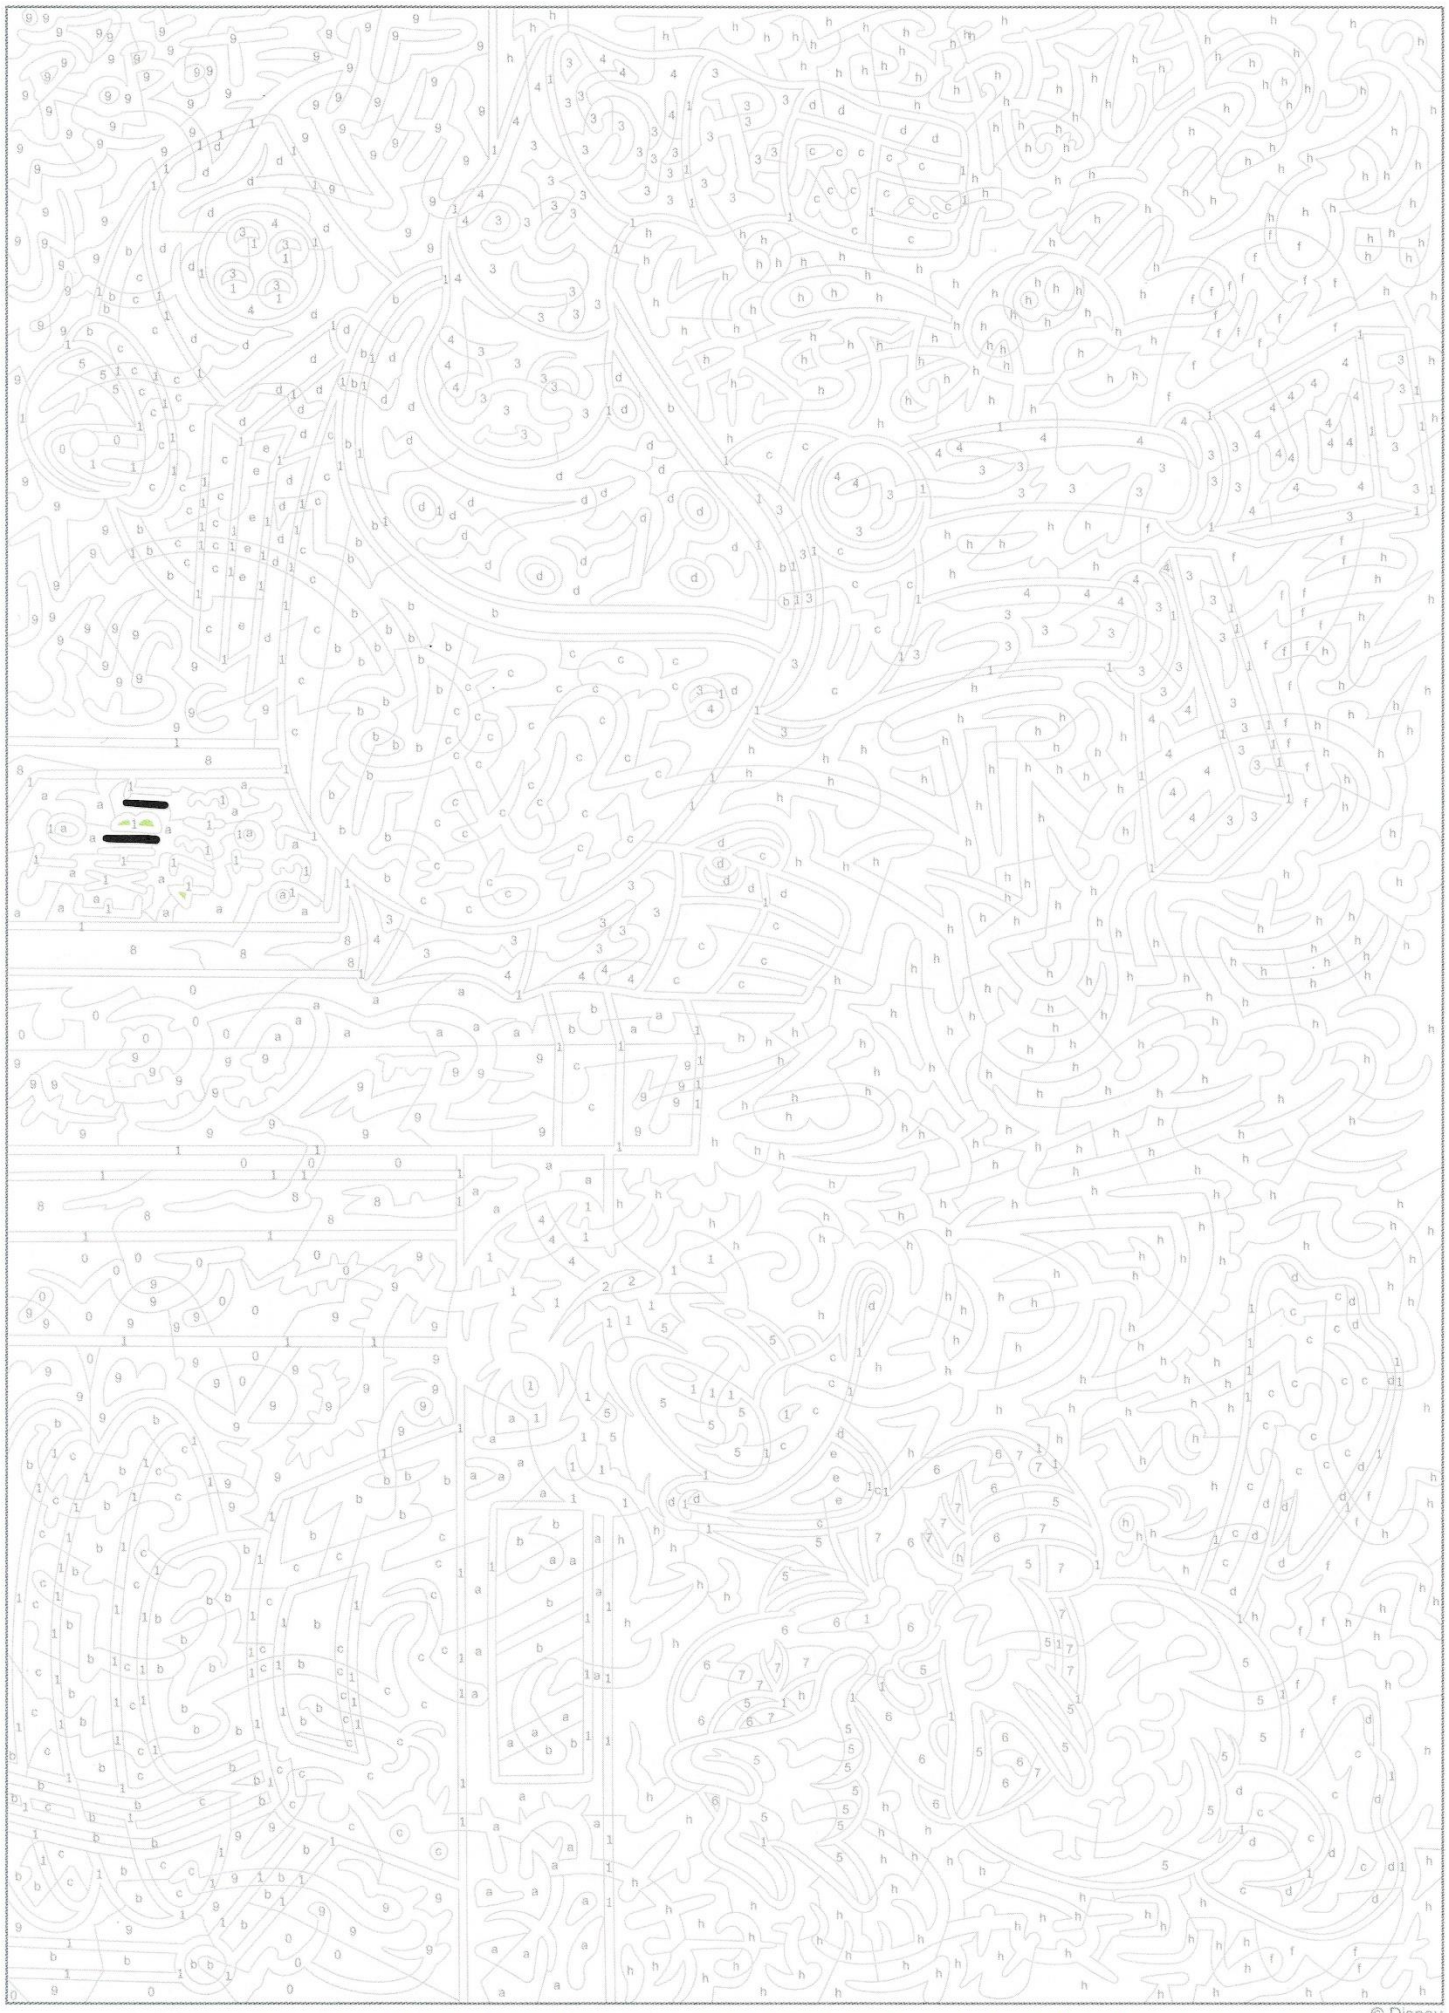

Lorsque vous travaillez avec des feutres, il est préférable de commencer par les couleurs claires et de finir par les couleurs sombres, pour ne pas salir vos couleurs préalablement posées sur le papier.

J'ai réalisé ce livre avec passion et j'ai passé beaucoup de temps à peaufiner chaque illustration.
J'espère que ces dessins vous procureront autant de plaisir que j'en ai eu à les créer.

Mot de L'éditeur

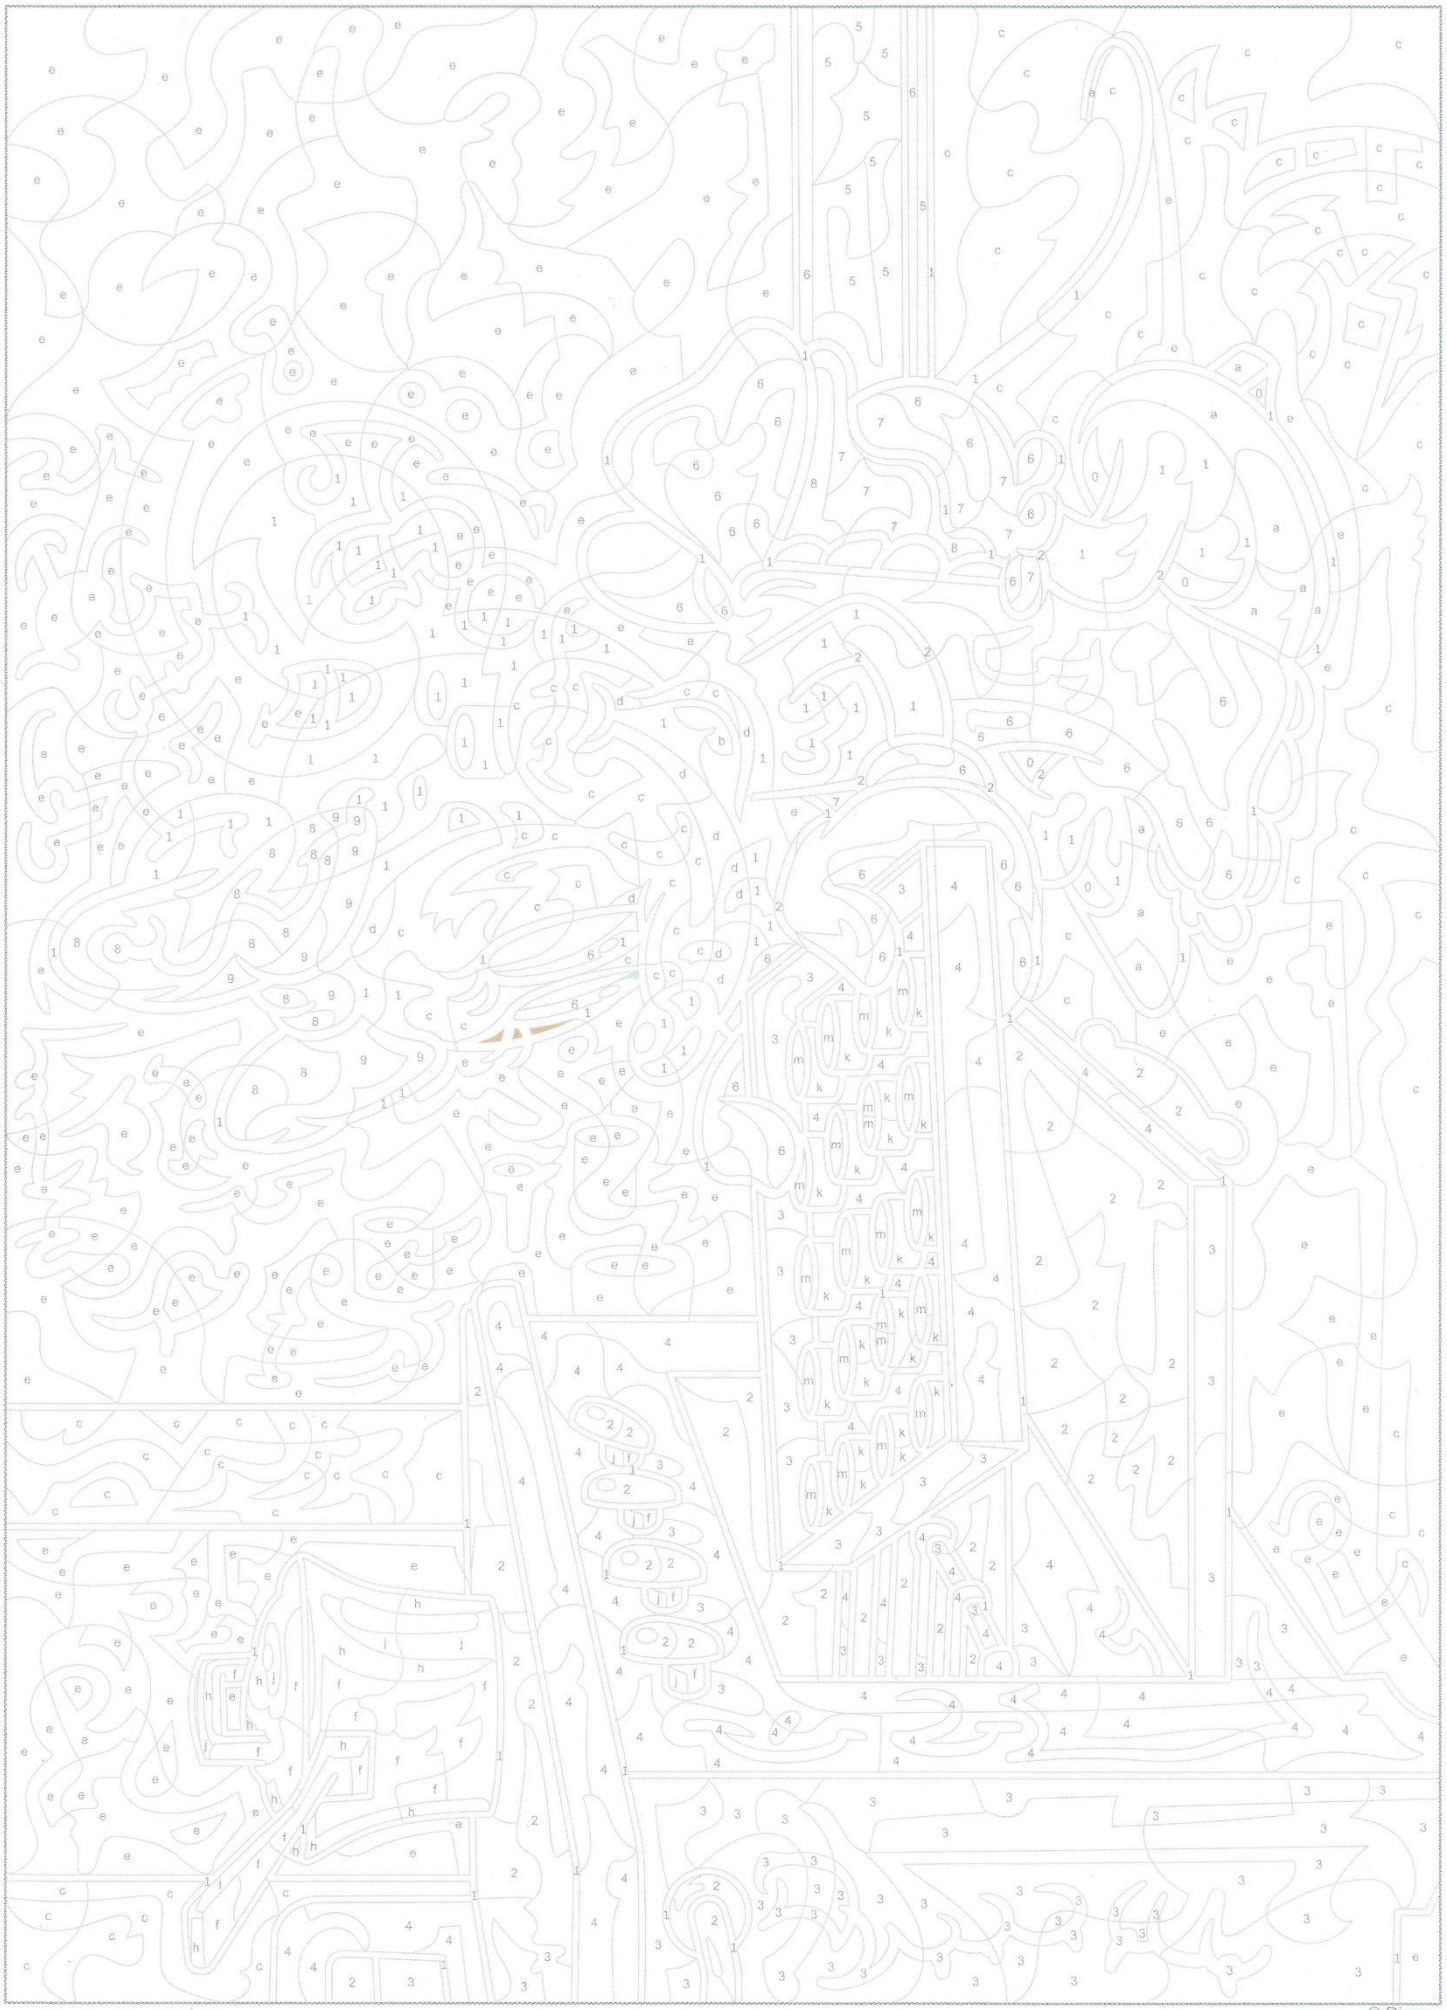

Avec Jérémy, nous avons travaillé en étroite collaboration sur ce titre. Nous avons choisi les visuels avec soin pour proposer des coloriages avec des difficultés différentes, tout en prenant en compte les remarques et critiques qui nous ont été envoyées sur les précédents titres de coloriages mystères. Nous avons essayé de varier au maximum les personnages et scènes des différents courts-métrages et séries de 1930 à 2000. Il vous faudra beaucoup plus de couleurs, mais le résultat en vaut la peine !
À vous de faire votre choix avant de vous lancer et de découvrir quel personnage se cache derrière les codes couleurs.
Quel que soit votre niveau, vous trouverez des illustrations qui vous permettront de vous amuser et de progresser.

Bon coloriage !
